cember 19, purporting to be signed by A. Levy & Brother, pleaded guilty to forgery in the fourth degree. That being his first onence, the City Judge sent him to the State Prison for two years. Annie Johnson (a young colored girl) was tried for stealing a silk dress and other wearing apparel on the 2d of becember, from Annie Lucas, was convicted of petty larceny and sent to the Penitentiary for six months.

Francis Riley was tried upon a charge of larceny from the person, James Murtha testifying that as he was passing through Wooster street on the night sof the 22d of December, the prisoner, who had two companions, snached his silver watch and ran away. He was pursued and an officer arrested him a short distance from the spot, it was shown that the complainant's vision was defective and the night was dark, and that a detective traced the possession of the watch to a young man named Sheldon. Riley proved that he was a hard working young man, and was never arrested previously. The jury were unable to agree upon the verdict and were discharged from the further consideration of the case. Air. Kintzing advised filey to plead guilty to petty larceny, and in view of his previous good character that plea was accepted. The sentence was six months imprisonment in the Penitentiary.

The sentence was six months imprisonment in the Penitentiary.

James McGuire, charged with stealing a set of harness walued at \$50, on the 24th of December, the property of Dingee & Deuholme, pleaded guilty to an attempt at grand larceny. The property was recovered. His Honor sent McGuire to the State Prison for two years and six montas.

Carl Bimbler was placed at the bar charged with stealing \$125 and a watch from Louis Kack on the 44th inst., in Greenwich street. After the evidence of the complainant was taken, the Court adjourned at a late hour, the officer who arrested the prisoner not being present. The case will be finished this morning.

TOMBS POLICE COURT.

Acrest of Mrs. Alicia Flynn, Supposed to be Concerned in an Old Bond Robbery-An Assistant Alderman Brought Before the Bar of Justice, Charged With a Brutal Assault. Before Justice Scott.

The most important case brought up yesterday was that of Charles Bell, complainant, against Mrs Alicia Flynn.

It seems that on April 12, 1870, the firm of Dabney. forgan & Co., of which Mr. Bell is a member, was obbed of sixty-two \$1,000 bonds of the Kansas and acific Railroad Company. A short time subsequently a man named Cliff Thomas was arrested nuently a man named Cliff Thomas was arrested for the robbery, convicted and sentenced to a term of five years in the State Prison at Sing Sing. Through the efforts of detectives all but 5,000 worth of these bonds were recovered about three days ago detectives Elder and McDongall became possessed of information which led them to suspect Mrs. Plynn of having in her possession the missing bonds. Yesterday morning drs. Flynn offered these bonds for sale in a lager beer saloon to a man whose name for obvious reasons is withheld. Word was sent to the detectives and Mrs. Flynn was arrested, besides the bonds and Mrs. Flynn was arrested. sons is withheid. Word was sent to the detectives and Mrs. Flynn was arrested. Besides the bonds attempted to be sold there were found in her possession five other bonds, of the Brooklyn, Fort Hamilton and Coney Island Railroad, which are also supposed to have been stolen. Mrs. Flynn, on being arraigned, stated that she was the widow of one Captain John Flynn, eistwhile known as a "curbstone broker;" knew nothing of the value of the securities nor whence hey came. Justice Scott committed her temporarity for examination.

Arrest of an Assistant Alderman. Jeremiah Murphy, late elected as an Assistant Iderman from the Second district, signalized his ession to his new dignity by a brutal and unprovoked assault on Mr. Michael J. Kelly, Clerk of the late Board of Assistants. The affray took place in the committee room of the Academy of Music on the occasion of the ball of the M. T. Brennan Otterie, and, as shown by the affiday it of Mr. Kelly, was utterly wanton and without excuse or pallia-tion. Justice Scott promptly held the brutal as-sailant in \$300 ball to answer, the defendant elect-ing to be tried at the General Sessions, where, it is to be hoped, he will meet with effective punish-ment.

HARLEM POLICE COURT.

Before Judge McQuade.
Yestefday was a busy day in the Harlem Police Court, and it was long after nightfall when Judge acquade disposed of the offenders brought before

Robbery and Aggravated Assault. On Monday night a young ruffian, named Dennis furphy, with three companions, entered the on of Henry Niebuhr, situated on the Bouleard, between Eighty-fourth and Eighty-fifth treets, and after having drinks refused to pay for hem. They then picked a quarrel with the barkeeper, George Braun, whom they dragged from behind the bar into a back room. While the other members of the gang held the barkeeper, Murbby, it is charged, robbed the till of all the money it contained and at the same time took a revolver and a quantity of cigars. Braun made an outery and endeavored to regain possession of the stolen property from Murphy. He was repulsed and brutally beaten by Murphy during the struggle. The thieves then fled with their booty. Murphy was yesterday arrested and taken before Judge McQuade, who committed him for examination on the charge of robbery. The barkeeper so badly used made a charge of felonious assault against the prisoner, which he will also have to answer. Murphy's confederates have not yet been arrested. eeper, George Braun, whom they dragged from

An Alleged Burglar Arrested. Officer Dwyer, of the Twelith precinct, brought o Court Robert Young, aged nineteen, who is acased of complicity in the recent burglary on the remises of Robert C. Campbell, at 130th street and hird avenue. Committed for examination.

A Notorious Ruffian Again in Trouble. Edward Bolger, one of the gang of desperadoes rho infest the Twelfth ward, was arraigned by officer Clark, of the Twelfth precinct, charged with using vile and threatening language toward him while in the performance of his duty. He was committed in default or \$500 ball to keep the peace for six months. Bolzer is the same individual who was shot by Officer Shea, of the Twelfth precinct, in August last. He has recently returned from a Bolourn of four months in the Penitentiary.

A Vagrant's Extraordinary Feat. Thomas Williams, alias John McCarthy, a slightly demented vagrant, who was some time ago committed to the Workhouse and from thence detailed to duty at the In ants' Hospital on Randall's Island, escaped from that institution on Sunisland, escaped from that institution on Sunday night by swimming across the river. At the time he accomplished this extraordinary feat the weather was intensely cold and the river was filled with floating ice. He was over half au hour in making the trip, and yet when re-arrested yesterday he was as sound as a dollar and as "happy as a big sundower." He told the magistrate along, rambling story of the immense wealth his family possessed, and asserted that the Geneva Conference had awarded him \$2,000,000. Judge McQuade was of the opinion that the poor icliow had earned his liberty, but as he had no means of support, despite the untold millions he had to his bank account, he was remanded to the Workhouse.

Money Alternately Harder and Easier.

CONGRESS SANCTIONS THE SYNDICATE.

The Secretary of the Treasury Given Leave to Proceed with Refunding Upon the Old Plan.

A FURTHER ADVANCE IN GOLD.

The Market Disregards the Syndicate Revival and Recovery in London Ouotations.

A RISE OF TWO PER CENT IN ERIE.

Advance in Lake Shore and Rock Island and Decline in Pacific Mail and Western Union.

Government Bonds Strong-Southern Securities Lower-Railroad Bonds Firm-Earnings of the Erie Railway.

WALL STREET, TUESDAY, Jan. 21-6 P. M. On 'Change to-day cotton was in better demand, and steady for lots on the "spot," while "futures" were the turn in sellers' favor. Flour continued active and very firm. Wheat and corn were in better demand and firmer. THE EXPORTS OF THE WEEK.

The total exports of domestic merchandise from the port of New York for the week ending January 21, 1873, were to the currency value of \$4,586,333. THE FOREIGN MARKET.

The London quotations have been higher and firm throughout the day, with a recovery in consols of all that was lost yesterday, a fact confirmatory of cable despatches that the relations of England and Russia are entirely harmonious as to the Khivan question instead of being unfriendly. There was a further advance in the United States five per cents, steadiness in the 67's and a recovery in the 65's. Erie shares were active and rose to 50, equivalent to 62% in our currency.

CONGRESS AND THE SYNDICATES. Washington advices state that the Ways and Means Committee announced to the Secretary of the Treasury that they had no suggestions to make as to the negotiation of the new loan, wherefore the inference was taken that they had no objection to his proceeding with the refunding of the debt through the agency already employed. It was sub sequently reported that Mr. Boutwell had accepted the offer of the Jay Cooke Syndicate, and still later that he had decided to divide the \$300,000,000 of five per cents evenly between the Jay Cooke and the Morton-Bliss Syndicates. -MONEY UNSETTLED.

The money market was moderately active during the greater part of the day, and gradually hardened until, in the vicinity of half-past two o'clock, borrowers on stock collaterals paid 7 per cent gold and occasionally 1-64 in addition to 7 per cent cur rency. Before the close of dealings on the side walk the rate fell off again to 6 a 7 per cent, and some nominal transactions were reported at 5 a 3 per cent. Among the government dealers the rate was steady at 6 a 7 per cent throughout the day. Mercantile paper was easier and quoted 7 a 10 per cent discount for prime names. Foreign exchange was firm and quotations unaitered.

GOLD STRONG-113% A 113%.

- The gold market opened weak upon the denial of the reports of a misunderstanding between the governments of Great Britain and Russia, and the price fell off to 113%. Here the market took a fresh start, under what appeared very much like clique manipulation, and advanced to 113%, but under went a relapse to 113% as soon as the news was received that Mr. Boutwell had been given carte blanche to go ahead with the further negotiation of the new loan through the agency of the Syndicate. Toward the close the market reacted to 113% and wound up strong on the announcement that the steamer of to-morrow would take a

of \$150,000 gold. A portion of the afternoon was occupied by a special session of the Board, at which the Executive Committee thereof resigned in a body. It seems that since the retirement of Mr. Hoyt, the Vice President, a number of the members have inaugurated a movement to succeed him with a non-salaried officer, and intended placing Mr. W. B. Bend in nomination for the position on this platform. This action was regard as infringing upon the dignity of the Executive Committee, who intended nominating Mr. T. F. B. Parker, of their own number, for the vacant Vice Presidency, and hence the unanimous tender of their resignations, which were accepted. This matter has added fresh fue to the already excited agitation in the Board over the question of rescinding the privileges of powers of attorney. The course of the market is shown in

NEW YORK CITY STOCK. Proposals for \$2,600,000 city improvement stock authorized by the Laws of 1869, will be received at the Comptroller's office up to Tuesday next, January 28. The stock will bear interest at the rate of seven per cent per annum, payable semi-annually, and the principal will be reduced November 1, 1892. Capitalists and others seeking a desirable investment are here presented with an opportunity of getting one. GOVERNMENTS STRONG.

The government list was strong and higher for the gold bearing issues, and a trifle lower for the currency issues, the former being quite active and the market presenting unusual animation, particularly after it was known that the Syndicate had been virtually given leave to proceed with the negotiation of the new fives. The last mentioned advanced to 113%-equivalent, ex coupon, to 112%-or 1% per cent below the par of gold, a margin of difference which must be closed up before the Syndicate can hope for success in proceeding to negotiate the remainder of the new fives, unless they rely upon what they may make out of the commission of 1% per cent which was granted THE ORIGINAL AGREEMENT

with the Secretary of the Treasury, and is now sanctioned by the Committee of Ways and Means. The following were the closing prices:-United States currency sixes, 113% a 114; do. do., 1881, registered, 115% a 116; do. do., coupon, 117% a 117%; do. five-twenties, registered, May and November, 114% a 114%; do. do. 1862, coupon, do., 114% a 114%; do. do. 1864, do. do., 114% a 114%; do. do., 1865, do. do., 116% a 116%; do. do. 1867, registered, January and July, 114% a 116%; de. do., 1865, coupon, do., 114%, a 114%; do. do., 1867, do. do., 115% a 115%; do. do., 1868, do. do., 1868, do. do., 115% a 115%; do. ten-forties, registered, 112% a 113; do. do., coupon, 113 a 113%; do. fives of 1881, registered, 111% a 112%; do. do., coupon, 113% B 113%. ck market, while dull and irregular in its general details, was stronger in many of its leading features and at times essayed an effort at activity and buoyancy. Thus a fairly animated business was done in Erie, Lake Shore, New York Central and Rock Island at firm prices, Erie undergoing a rise to 63% in sympathy, first, with the tenor of the London quotations and in consequence, later, of surmises that the special committee to whom nad been referred the question of the dividend on the preferred stock had agreed to declare one, and of reports that the agents of the company in London had succeeded in satisfactorily negotiating the recently authorized

LOAN OF TEN MILLIONS. Should this last mentioned matter prove true, the success of the negotiation speaks volumes for the estimation in which the present Erie managers ' are held in England. An advance in Lake Shore to 93% testified a recurring faith in the ability of the company to keep up the payment of dividends, and rise in Rock Island to 112 is a remarkable sequence to the recent creation of six millions of new capital. New York Central was steady at pretty nearly the highest of its lately achieved improvement, and St. Paul in better demand at a rally to 53%. On the other hand there was a fresh pressure to sell Western Union on the

UNEQUIVOCAL DENIAL plicity in the "bull" movement therein, while a lower range of quotations for Pacific Mail and Wabash attested the existence of a bearish sentiment, the latter stock experiencing a natural reaction under the wider knowledge and less fa vorable interpretation of the action of the pany in issuing the new mortgage loan of five milhons. The coal railways were lower under the opposition threatened by the coal trade to the combinations nearer the mines. Otherwise the characteristics of the market are summed up briefly in the designations-steadiness and dulness, the re ported success of the new Syndicate movement producing much less enthusiasm than might have been anticipated. However, this last influence is one which may develop into one of exceeding importance before "the Spring rise" has buried the débris of "the January thaw." HIGHEST AND LOWEST PRICES.

M.

There was a still freer movement in trade circles to-day, superinduced in part by the material advance in the gold premium within the day or two past, and the merchandise markets were characterized by increased firmness in nearly every department. There have been more speculative ventures within the past few days than for a long time previously, though the sales are mainly to meet legitimate re quirements. There was a free export movement, and a much more active inquiry for vessels for charter as a direct and natural consequence of it; but the movement was restricted by the scarcity of vessels and the high rates demanded for them. Still business for shipment is satisfactory and increasing in volume from day to day. Cotton remained comparatively quiet at unchanged figures. At the Produce Exchange there was more tone to the markets generally, the greater buoyancy in breadstuffs being still the chief feature. Flour was active and in some cases higher. Wheat was wanted at the full prices of yesterday, while buyers in-sisted upon and in some cases received an advance, the market closing strong under a moderate export demand. Corn was fairly active and rather firmer. Oats were in good request, and considerable sales were effected at full prices. The movement in provisions was sluggish, except in lard, which sold freely at yesterday's prices. Freight room by which soid freely at yeasersay's prices. Freight from by vessels on the berth was sought after to only a moderate extent, and rates remained without essential change, The chartering business was brisk at full rates. Petroleum remained dull, but a little firmer feeling was manifested. Naval stores were about steady under a better demand. East India goods were quiet. Metals were quiet, but firm. Wool, although quiet, exhibited consid-

The market has exhibited no change, remaining quiet but steady for pots and entirely nominal for pearls. We quote:—Pots, \$8 50.

BUILDING MATERIALS. - Bricks attract some attention but in the aggregate business is light, although we notice no change in prices. Lime sold in a small way, and was steady, at \$1 50 for Rockland common and \$1,75 for do. hump. Cement was quiet and steady, at \$1 60 per bbl. for Rosendale. Laths were in light supply and in moderately fair demand; quoted at \$2 35 a \$2 45 for Eastern

CANPLES.-There has been a moderately fair demand for adamantine during the past three days, and some call for paraffine, which were scarce. Prices remained unfor paramne, which were scarce. Frices remained un-changed and as follows:—Sperm, 30c. a 31c.; patent do., 40c. a 42c.; paraffine, 30c. a 31c.; stearic, 28c. a 29c., and adamantine, 20c. a 21c. FINANCIAL. BANKING HOUSE OF JAY COOKE & CO., 20 WALL STREET, Jan. 21, 1873. The Northern Pacific Railroad Company now has in

full operation, with regular daily trains, 321 miles of road. A distance of nearly two hundred miles more is constructed. The Minnesota section immediately on its completion entered upon a satisfactory business. Including local traffic and the large carrying trade of the North pany. The recently completed section of sixty five miles, on the Pacific coast, at once commands a profitopening of Spring, with more than five hundred miles of road in regular operation, the company will control the extensive and productive trade of the Upper Missouri much of Montana and the Northwest. The earnings of the road for 1873 will be large. Arrangements for pushing construction vicero

coming year are progressing satisfactorily.

Of the nearly ten million acres of land accruing to the company in connection with the portion of road now virtually constructed some two million acres of excellent average quality are in market, and their sale and settlement progressing. The average price thus far realized is \$5.06 per acre, which is at the rate of more than \$100,000 per mile of road for the whole grant.

The company has already begun the process of redeeming and cancelling its first mortgage gold bonds as they are now being received at 1.10 in payment and exchange for the company's lands.

change for the company's lands.

With these accomplished results and most favorable prospects, the company is now selling its First Morkgare 7.39 Bonds for the purpose of completing its line of road. We recommend them as a well secured and unusually profitable investment. They have the following elements of strength and safety:—They are the obligation of a strong corporation: they are a first mortgage on the road, its right of way, telegraph lines, equipments and franchises and a first lien on its liet carriings. In addition to this usually sufficient security there is piedged for the payment of principal and interest a land grant of 12,800 areas per mile of road through the States and 2,800 through the Territories. The rate of interest (seven and three-tenths per cent, gold) is equal now to about 85 currency. Gold checks for the semi-annual interest on the registered bonds are unified to the Fost office address of the owner. All marketable securities are received in exchange on most tavorable terms. For sale by banks and bankers generally.
